

**PupZip™ Vehicle Zip Line
Care & Use Guide**

Thank you for your purchase of the Solvit PupZip™ Vehicle Zip Line. This zip line can be installed in the vehicle bench seat area, cargo area, or pickup bed areas.

WARNING: Transporting pets in the pickup truck bed carries inherent risks. Solvit is not responsible for injuries incurred by pets transported this way. Always inspect the condition of the zip line for wear or damage before use.

Installation: Determine two anchor points from which to suspend zipline. Attach one of the steel-reinforced hooks to each anchor and shorten the red strap to tighten. Any leftover zip line material can be kept out of the way by bundling with the included hook-and-loop strap. Make sure the black leash is adjusted to allow your pet to lie down, if desired. To loosen the zipline, grasp the base of the hook and pull forward, while simultaneously feeding the loose end of the strap back through the hook (see image).

Warranty: The PupZip™ Vehicle Zip Line is warranted to be free from defects in materials or workmanship for a period of one (1) year from the date of purchase. A copy of the original sales receipt is required for warranty issues.

Solvit Products is dedicated to offering innovative solutions to improve pets' quality of life. Please feel free to contact us with any questions, comments, or warranty issues. Thank you for your purchase!
