5. Works well with couches and beds
6. Slight assembly required
7. Dimensions: 24 x 18 x 18
8. One-year warranty.
9. Patent Pending design.

Sample write-up:

“Beautify your home and help your pets reach the couch or bed with these furniture-quality pet stairs.”

These beautiful stairs feature furniture-quality materials and construction. Fashioned from solid hardwoods (no MDF or veneers), with raised panels and beveled edges, these stairs allow your pampered pet to reach their favorite snoozing place in style.

The Deluxe Pet Stairs are functional, too, with a roomy storage compartment under the top stair tread. Their 18” height works well with couches or beds (the bed becomes the “fourth” step).

Most pet stairs are bulky and unrefined. These you’ll want to display for all to see. The Deluxe Pet Stairs come “standard” with neutral-brown carpet tread covers. The “premium” version includes top-quality oriental rug tread coverings. Also, it’s possible to have custom tread coverings made to truly personalize your Deluxe Stairs. Check with your local carpet/rug dealer for more details.

The Deluxe Stairs carry a one-year warranty against defects in materials or workmanship. Slight assembly required. Finished dimensions = 24 x 18 x 18. Patent pending design.
