**Sample write-up:**

*The Solvit Pet Booster Seat provides the ultimate ride for the pampered pet. Some booster seats sit too low, or they are supported by straps that attach to the front of the basket, making it difficult for pets to move around. The internal frame design of the Solvit Booster Seat elevates pets to provide a clear view of the road, with no clumsy straps to get in their way. Installs securely in one minute and even works in the back seat! The Booster Seat features a padded interior to cradle your pet in comfort and luxury. The internal liner removes for washing to keep the Seat clean and fresh. Safety leash and storage pocket included. Warranted for one year against defects in materials and workmanship. Let your pet ride in style, with the Pet Booster Seat from Solvit Products.*
